

Afstanden meten, optellen en opschrijven

1. Meet de afstand en schrijf de lengte op:

$a = 4 \text{ cm}$
 $b = \underline{\hspace{2cm}}$
 $c = \underline{\hspace{2cm}}$
 $d = \underline{\hspace{2cm}}$
 $e = \underline{\hspace{2cm}}$
 $f = \underline{\hspace{2cm}}$
 $g = \underline{\hspace{2cm}}$
 $h = \underline{\hspace{2cm}}$
 $i = \underline{\hspace{2cm}}$

2. Meet de volgende afstanden en tel ze tenslotte op:

$a-b = \underline{\hspace{2cm}}$
 $b-c = \underline{\hspace{2cm}}$
 $a-c = \underline{\hspace{2cm}}$

$a-b = \underline{\hspace{2cm}}$
 $b-c = \underline{\hspace{2cm}}$
 $c-d = \underline{\hspace{2cm}}$
 $d-e = \underline{\hspace{2cm}}$
 $a-e = \underline{\hspace{2cm}}$

$a-b = \underline{\hspace{2cm}}$
 $b-c = \underline{\hspace{2cm}}$
 $c-d = \underline{\hspace{2cm}}$
 $d-e = \underline{\hspace{2cm}}$
 $e-f = \underline{\hspace{2cm}}$
 $f-g = \underline{\hspace{2cm}}$
 $g-h = \underline{\hspace{2cm}}$
 $a-h = \underline{\hspace{2cm}}$

3. Teken nu zelf een samengestelde afstand:
